Stopper Specialists is the UK's leading supplier of pipe stoppers and pressure testing equipment to the construction, civil engineering and utility industries; offering an unrivalled portfolio of products for a variety of tasks from blanking off vessels to pressure testing pipelines. Investment in our equipment is extensive and we operate a quality system accredited to BS ISO 9001:2000, which ensures both reliability and performance. This is supported by a network of distribution centres and a fully dedicated sales team who are trained specifically to offer technical advice, whatever your requirements.

Latest news
